

# LINEAR GUIDES

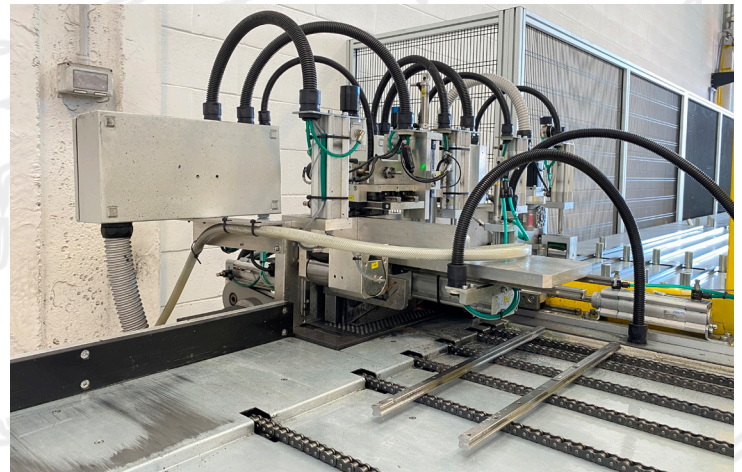

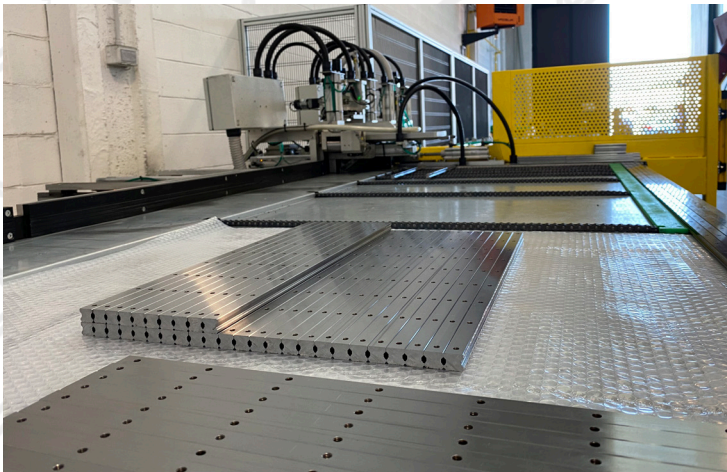

# CHIARAVALLI LINEAR CENTER

CHIARAVALLI GROUP extends its wide range of transmission products by introducing Linear Guides in its portfolio.

With the birth of CHIARAVALLI Linear Center (CLC), CHG steps ahead in another market segment and reaffirms the pivotal position as reference partner for all domestic and worldwide partners.

Located in the Milan area, CLC has been established upon the broad expertise of his Director, Massimiliano Morelli, and his team.

Specifically designed and engineered automatic and semi-automatic cutting lines allow to prepare linear transmission components with the highest precision also supported by machines which can bevel and grind standard parts with a high grade of detail & precision.

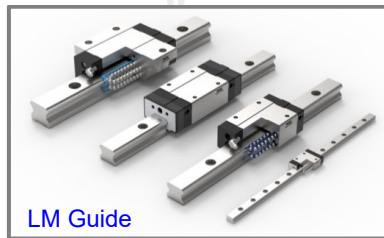

Twenty-five years of know-how and a modern cutting center allows CLC to provide clients with a wide selection of linear-devices up to any custom-solution. We can straightway offer standard application, as well as a skilled support to tailor out customers' technical requirements with the highest accuracy.

Design, manufacturing, and distribution of linear motion systems complete the Chiaravalli portfolio by keeping the goal of serving our customers with state-of-the-art products.

- Wide range of products
- CLC linear guides benefits:
  - Commercial precision class H
  - Perfect interchangeability between systems
  - Low noise level & smooth operation
  - Innovative lubrication system for increased time between each maintenance
  - Drawings & 3D STEP availability
  - Top-level Korean quality
- Anti-corrosion treatment
  - Raydent Treatment
  - Niploy Process
  - Manganese Phosphating
- RoHS & REACH Certificates
